Licenses for Massage Therapists:

The Nevada State Board of Massage Therapists (NSBMT), pursuant to legislation NRS 640C, began licensing Massage Therapists on January 1, 2007. Based on this legislation, EMTS recommends that all graduates take the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) exam. It is a nationally recognized certification that could enhance employment opportunities, and is required to practice in the state of Nevada and many other states. Certification requirements for taking and passing this examination are not controlled by EMTS but by outside agencies and are subject to change without notice.

In accordance with NRS 640C.400, the Nevada State Board of Massage Therapists may refuse to award a license to practice if the applicant is found to be:

- convicted of a felony or a misdemeanor, or any criminal behavior directly related to the practice of massage.
- engaging in immoral conduct, such as sexual abuse, sexual misconduct, or sexual exploitation;
- engaging in dishonorable, unethical, or unprofessional conduct of a character likely to deceive, defraud, or harm the public;

Standards vary widely for massage regulation by state and municipal governments throughout the United States. Education undertaken in one state or municipality may or may not be applicable to the requirements of another.

EMTS complies with the provisions of Title 1 of the Civil Rights Acts of 1964 and 1974, the Rehabilitation Act of 1973, the American Disabilities Act and all amendments therein.

Foreign Students

The School is approved by the Department of Homeland Security to issue student visas to international students at the Skokie, IL campus only.

Transfer of Credit

EMTS may accept credits from other institutions accredited by an agency recognized by the United States Department of Education (USDE) or the Council for Higher Education Accreditation (CHEA). EMTS will consider the transfer of credits for completed coursework from such institutions, provided such credit is substantiated by an official transcript, and is submitted for evaluation at least five (5) days prior to the start of the program.

To be eligible for transfer of credit to the School, students must have successfully completed the coursework within the past 18 months, and have earned at least a grade of ‘C’ in each course being transferred. If the coursework of the completed credit is found to be obsolete, the applicant may be required to update the credit. Coursework content of the completed credit must be considered comparable to the level of the coursework of EMTS’ programs. Some coursework at EMTS may have requirements that cannot be satisfied by examination or transfer credit.

No more than 25 percent of coursework from another institution may be transferred into EMTS. The Director has the final authority in determining which coursework can be satisfied by transfer of credit.

Transfer credit will be considered for related previous education completed in:

- Accredited vocational or licensed Therapeutic Massage Schools.
- Other related courses, e.g. Medical Terminology, Anatomy and Physiology.

Applying students may be required to take a written examination and/or perform specific procedures to demonstrate the required knowledge and skill, in order to be granted transfer credit. EMTS may grant the student advanced standing in his/her selected program as a result of acceptance of transfer credit.

Failure to comply with the transfer of credits requirements will not only cause the transfer of credits to be denied but the applying students will be ineligible to apply for VA educational benefits as well.

If course requirements are satisfied by transfer credit from another college, tuition will be adjusted accordingly, and advanced standing will be granted to the student.

The School does not award credit for experiential learning.
Challenge Credit

Prior to a student beginning a course, European Massage Therapy School will consider giving credit by examination, for certain courses, to those applicants that have relevant knowledge and/or skills acquired through prior training and education. Students may challenge a maximum of two courses.

Credit shall be determined by successful completion of a comprehensive written and/or practical examination. Successful passing of examinations requires a grade of ‘B’ or better, and demonstration of the requisite practical skills. Interested students should contact the Director for scheduling of examinations. The Director will determine applicability on an individual basis, and will evaluate prior coursework, and grades received. If course requirements are satisfied by an examination, a student will be entitled to a tuition credit.

Transfer of Credit from European Massage Therapy School

Transfer of credit from EMTS to another institution is entirely up to the receiving institution. EMTS does not guarantee that another school will accept any of its credits. EMTS will provide academic information, in the form of a transcript, to the receiving school at the written request of the student. Students wishing to transfer credits to another school should contact the school to determine its policy of accepting credits from the European Massage Therapy School.

A fee of $5.00 will be charged for additional copies and must be paid in advance before the transcript request is processed. Transcripts sent directly to the student will be marked to indicate that they are unofficial copies. Official transcripts will not be released to students who have past due accounts with the School.

It is the student’s responsibility to read and understand the provisions of this catalog. Any questions regarding the School’s policies should be addressed and satisfied prior to starting class.
Retention of Student Records

It is the policy of EMTS to maintain all records at its primary administrative location for a minimum of five years. Additionally, it is the policy of the School to maintain student transcripts indefinitely. After five years, student transcripts may be retained on site or may be moved to another location, and may take a longer period to access.

Notice of Student Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives the request for access. Students should submit to the Director or other appropriate official, written requests that identify the record(s) they wish to inspect. The School official will make arrangements for access and will notify the student of the time and place where the records may be inspected. If the records are not maintained by the School official for whom the request was submitted, that official shall advise the student of the appropriate official to whom the request should be addressed.

2. The right to request an amendment of the student’s educational records that the student believes is inaccurate or misleading. Students may ask the School to amend a record that they believe is inaccurate or misleading. In such cases, the student should write the School Official responsible for the record, clearly identify the part of the record they are requesting be changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the student, the School will notify the student of the decision and will advise the student of his or her right to a hearing regarding the request for an amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s educational records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to School officials with legitimate educational interests. A School official is a person employed by the School as an administrative, supervisory, academic or research, or support staff person (including law enforcement unit, personnel and health staff); a person or company contracted (such as an attorney, auditor, funding agency, or collection agent); a person serving the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another School official in performing his or her tasks.

4. School official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

5. Parental access to a student’s records will be allowed without prior consent if the student is a dependent as defined in Section 252 of the Internal Revenue Code.

6. The right to file a complaint with the U.S. Department of Education concerning alleged failures by European Massage Therapy School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryaland Avenue, SW

Dress Code and Personal Hygiene Policy

In order to prepare for a career in Massage Therapy, students are expected to maintain high standards of personal hygiene and cleanliness, both in the classroom and when working with clients.
Students should utilize good judgment in determining their dress and appearance. Neatness and cleanliness are absolutely necessary at all times. Clothing must be clean and in good repair. The students nails must be clean and trimmed short (no nail polish), and all hair that is shoulder length or longer must be pulled back off the shoulders. No perfume or cologne is permitted while at school.

The instructor will advise the student of inappropriate dress or appearance. When there is a difference of opinion related to appropriateness of dress, the final decision is the responsibility of the Director.

Failure to comply with the dress code will lead to progressive disciplinary action.

Housing

EMTS does not have on-campus housing nor does it assist students in finding housing. Students needing housing information should contact the Director.

Financial Aid

Financial Assistance

EMTS participates in a variety of financial aid programs for the benefit of students who qualify. Students must meet the eligibility requirements of these programs in order to participate. EMTS administers its financial aid programs in accordance with prevailing federal and state laws and its own institutional policies. Students are responsible for providing all requested documentation in a timely manner. Failure to do so could jeopardize the student’s financial aid eligibility. In order to remain eligible for financial aid, a student must maintain satisfactory academic progress as defined in this catalog. It is recommended that students apply for financial aid as early as possible in order to allow sufficient time for application processing. Financial aid must be approved, and all necessary documentation completed, before the aid can be applied toward tuition and fees. Financial aid is awarded on an academic year basis; therefore it is necessary to re-apply for aid for each academic year. Students may have to apply for financial aid more than once during the calendar year, depending on their date of enrollment. Students who need additional information and guidance should contact the Financial Aid Office.

Federal Financial Aid General Eligibility:

Qualified students are able to receive loans and/or grants through federal student aid programs. To be eligible for any federal financial aid you must:

- Have a high school diploma or the equivalent
- Be a U.S. citizen or be a permanent resident alien (have a "green card")
- Not be in default or owe a refund on any federal loan or grant
- Have no disqualifying drug related convictions
- Be registered with Selective Service ("the draft") if required
- Be enrolled in an eligible program on at least a half-time basis (all EMTS programs meet this requirement)

Dependent and Independent Student Status:

Your dependency status determines which student loans you may borrow and whether you must submit your parent’s financial information on your aid application. For purposes of qualifying for federal aid, you are a Dependent Student if all of the following apply to you (2018-19 school year):

- Your birth year is between 1995 and 2001 (inclusive)
- You are unmarried
- You are not a veteran of the U.S. Armed Forces
- You are not an orphan
- You have no children (or other dependents) who receive more than half of their support from you

If any of the above does not apply to you, you are considered an Independent Student.

How to Apply

Students who want to apply for federal aid must complete a Free Application for Federal Student Aid (FAFSA) each year. This application is available online or at the EMTS Financial Aid Office. FAFSA applications are processed through
The William D. Ford Federal Direct Parent-PLUS loan is available to parents of dependent undergraduate students. These loans are not based on need but when combined with other resources, cannot exceed the student's cost of education. A credit check on the parent borrower is required and either or both parents may borrow through this program. Repayment begins within 60 days of final disbursement of the loan within a loan period. However, parents may request deferment of payments while the student is attending at least half time.

**Private Loans**

Various lending institutions offer loans to help cover the gap between the cost of education and the amount of federal and state eligibility. A cosigner may be required to meet the loan program's credit criteria. Interest rates may vary and are typically based on the prime rate or the Treasury Bill rate. Contact the specific lender for more information.

**Veterans’ Educational Benefits**

European Massage Therapy School is approved by the applicable State Approving Agency for Veterans Affairs and participates in Veterans’ Educational Benefit programs. Students interested in Veterans’ Educational Benefits should contact the Financial Aid Office. Veterans who are unsure of their benefit eligibility or have additional eligibility questions should contact the Veterans Administration at (800) 827-1000, or (888) GI Bill-1 [(888) 442-4551], or go to https://www.benefits.va.gov/gibill. “GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA).” Students applying for VA educational benefits must submit all postsecondary education transcripts including any military training transcripts and certificates to EMTS for credit transfer review. Eligible students must maintain satisfactory academic progress and all applicable eligibility requirements to continue receiving Veterans' Educational Benefits.

**Agency Funding**

EMTS is approved for participation in several educational programs offered by various agencies. These include Workforce Investment Act, Private
Industry Council and several programs sponsored by state and county agencies for unemployed or under-employed workers.
Information can be obtained from the agencies themselves or from the school’s Financial Aid Office.

Return of Title IV Funds

A recipient of federal Title IV financial aid who withdraws or is dismissed from school during an academic year or period of enrollment in which the student began attendance will have the amount of Title IV funds he/she did not earn calculated according to federal regulations. This calculation will be based on the student’s last date of attendance and the date the school determines that the student has withdrawn from school (see Withdrawal Date policy), or the date of dismissal for a student who is dismissed by the institution. The period of time for which Title IV financial aid is earned for an academic year or period of enrollment is the number of calendar days the student has been enrolled for the academic year or period of enrollment up to the day the student withdrew divided by the total number of calendar days in the academic year or period of enrollment. That percentage is multiplied by the amount of the student’s Title IV financial aid for the academic year or period of enrollment for which the Title IV financial aid was awarded to determine the amount of Title IV financial aid that has been earned. The amount of Title IV financial aid that has not been earned for the academic year or period of enrollment, and which must be returned, is the complement of the amount earned. The amount of Title IV financial aid earned and the amount of Title IV financial aid not earned will be calculated based on the amount of Title IV financial aid that was disbursed or could have been disbursed for the academic year or period of enrollment upon which the calculation was based. A student will have earned 100% of the Title IV financial aid disbursed for the academic year or period of enrollment if the student withdrew or was dismissed after completing more than 60% of the academic year or period of enrollment. Once the amount of Title IV financial aid that was not earned has been calculated, federal regulations require that the school return Title IV funds disbursed for the academic year or period of enrollment and used for institutional costs in the following order:

1. Unsubsidized Direct Stafford Loans (other than PLUS loans)
2. Subsidized Direct Stafford Loans
3. Direct PLUS Loans
4. Federal Pell Grants

If the amount of unearned Title IV financial aid disbursed exceeds the amount that is returned by the school, then the student (or parent, if a Federal PLUS Loan) must return or repay, as appropriate, the remaining grant and loan funds. The student (or parent, if a Federal PLUS Loan) will be notified of the amount that must be returned or repaid, as appropriate.

Withdrawal Date

The withdrawal date used to determine when the student is no longer enrolled at European Massage Therapy School is the date indicated in written or telephone communication by the student to the Director’s office. If a student does not submit written notification, the school will determine the student’s withdrawal date based upon federal regulations and institutional records. Please note that the above policy may result in a reduction in school charges that is less than the amount of Title IV financial aid that must be returned. Therefore, the student may have an outstanding balance due the school that is greater than that which was owed prior to withdrawal.

Last Day of Attendance

The last day of attendance for refund computation purposes is the last date of actual physical attendance by a student in classes.

ACADEMICS

EMTS has adopted the following academic standards for The Professional Massage Therapy Program, and these standards are applied to all full-time and part-time students enrolled in an educational program.

Academic Standards

Academic standards have been established which are to be met by the student for satisfactory progress throughout the educational program. Refer to the Satisfactory Academic Progress Evaluation paragraph in this catalog. Students are allowed up to 150% of the normal program length in which to satisfactorily meet the requirements;
this is the **maximum program length** in which students are allowed to complete the program.

Students are evaluated at the 50%, 100% and 150% (the maximum program length) periods. For courses graded on the basis of Pass or Fail, the minimum standard is "Pass" at each evaluation point. In addition, a minimum grade of "C" is required to successfully pass each course. Students must repeat courses in which a grade of “D”, “F”, “I” or “W” are earned.

Attendance is vital to academic progress. Students are expected to attend all classes and clinical learning experiences. The student must adhere to the Attendance Policy, specifically as it relates to "Make-Up" of theory and/or clinical coursework. In order to earn a satisfactory grade in a course, the student must complete 85% of the hours of instruction offered in all theory, laboratory and clinical coursework. Refer to the Attendance Policy for additional information.

### Academic Advising

The Director is available to provide academic advising as requested or needed to assist students in meeting satisfactory academic progress standards, and successfully completing graduation requirements. Contact the School Director for academic advising services.

### Definition of a Clock Hour

A “clock hour” is defined as 50 minutes of class, lecture, or studio session, with a ten minute break between sessions.

*Failed courses must be repeated*

For certain Clinical/Technique Performance Evaluations the following grading system is used: **Pass or Fail**.

A student who fails to achieve a passing grade in the clinical or laboratory course, cannot progress to the next course level of clinical or laboratory.

- **Satisfactory (Pass)** - The student has met the clinical objectives based on course requirements.
- **Unsatisfactory (Fail)** - The Student has not met clinical objectives based on course requirements. Students must demonstrate overall satisfactory performance during the clinical assignments for each content area. **Students, who receive a marginal rating during the course, may be placed on probation during the clinical course.** Failure to improve performance to Satisfactory will result in an **Unsatisfactory** rating. A student who fails a clinical course is subject to dismissal from the program.

The Instructor has the final authority for determining the student’s grade for a course. Grades may not be changed by anyone other than the instructor. A student may appeal a final grade to his/her instructor. The scholastic progress of the student is reported at the end of each course and grades are recorded on the student’s permanent record (transcript). Performance evaluations, in Clinical and Laboratory courses are based on evidence of student achievement in meeting the competencies of the course. Clinical objectives will be measured, in part, through direct observation of actual performance. Students have the opportunity to practice clinical skills and behaviors prior to being evaluated.

The **Competency Checklist**, used in assessment of student achievement of the course’s clinical objectives, evaluates a composite of skills, which must be satisfactorily demonstrated in order for the student to receive credit. Regular evaluations are conducted and deficiencies will be reviewed with the student.
Satisfactory Academic Progress

EMTS has specific standards, which students are expected to achieve in order to maintain Satisfactory Progress in their program of study. These standards are based on grades and the completion of program requirements within a maximum time frame.

At EMTS, satisfactory progress for ALL students is defined by the following criteria:

1. Students are allowed up to 150% of the normal program length in which to satisfactorily meet the requirements. This is considered the **Maximum Program Length**.

2. Students must successfully complete 66.7% of hours attempted at each evaluation period. This is considered the minimum completion requirement.

3. Students must successfully meet or exceed the minimum Cumulative Grade Point Average (CGPA) of course completion standards set forth below. The evaluation points are based on the percentage of clock hours attempted.

All students must meet the following minimum standards of academic achievement and successful course completion while enrolled at EMTS. The student’s progress will be reviewed at the end of each period. Students must meet or exceed the minimum CGPA and course completion standards set forth below.

**Evaluation Periods**

Students’ compliance with the Satisfactory Academic Progress is divided into evaluation periods and is assessed at each of the following times:

- At the end of the first payment period (the point at which 50% of the course is scheduled to be completed)
- At the end of the second payment period (The point at which 100% of the course is scheduled to be completed)
- At the end of the **Maximum Program Length**.

**Example:** For the 610 clock hour Massage Therapy Program, a student will be evaluated at the increments in which the student is scheduled to reach 305, 610 and 915 clock hours, if applicable.

CGPA Requirements

Students must meet minimum CGPA requirements at specific points during their enrollment in order to be considered making satisfactory academic progress. These will be reviewed at the end of each evaluation period after grades have been posted to determine if the student’s CGPA is in compliance. EMTS students must achieve a **Cumulative Grade Point Average (CGPA)** of at least 2.0 at each evaluation point.

**Academic Probation**

Students, who do not maintain satisfactory progress for any evaluation period, will be placed on probation for the next evaluation period. If the student fails a course while on probation, the student may be withdrawn at the Director’s discretion, even though the next evaluation point may not have been reached. The student’s progress will be evaluated at the end of the probationary period, and if the student’s CGPA meets or exceeds a 2.0, the student will be allowed to continue, and the probationary status will be removed. Students who are on academic probation are not permitted to take a leave of absence. Students will be allowed only one period of academic probation.

If at any point it can be determined that it is mathematically impossible for the student to meet the minimum requirements, the student will be dismissed from the School. Notification of academic dismissal will be in writing. The **Student Conduct** section of this catalog describes other circumstances that could lead to student dismissal for non-academic reasons. As a dismissed student, a tuition refund may be due in accordance with the institution’s stated refund policy.

During the Probation period students are considered to be making satisfactory academic progress and remain eligible for financial aid.

**EMTS** maintains the right to place a student on probation or to terminate the student from his/her program. The student’s actions or behaviors that will cause probation or termination from school are explained throughout this catalog. Following is a non-inclusive summary of actions or behaviors that are among those which will cause probation or termination from School:

Appeal

A student who has been academically dismissed may appeal the determination if special or mitigating circumstances exist. Any appeal must be in writing and must be submitted to the Director within 10 calendar days of receiving notification of his/her dismissal. The student should explain what type of circumstances contributed to the academic problem and what plans the student has to eliminate those potential problems in the future. The decision of the Director is final and may not be further appealed. Students may appeal academic dismissals no more than two (2) times.

Reinstatement

A student who has been academically dismissed may appeal for reinstatement after one term has passed following withdrawal. Students who are allowed to reinstate will be placed on academic probation for at least one evaluation period. All grades previously earned will remain on the transcript, and the maximum time for program completion will apply based on the original start date of the first enrollment.

Incomplete grades

An “I” Incomplete grade is awarded if the student has failed to complete the required course work. Students receiving a grade of Incomplete (“I”) will be allowed two weeks in which to complete the required work and submit it to the instructor of the course in which the grade was earned. The student will be allowed to continue attending while completing the required coursework of an Incomplete grade. If an Evaluation Point occurs during the time a grade of “I” is issued, the student’s progress will be evaluated at the required evaluation point and again at the end of the two-week period in which the student was allowed to complete the coursework. If, at the end of the two-week period allowed to complete the coursework, the student has not completed the required work, a final grade of “F” will be recorded and posted to the transcript and will affect the student’s CGPA. EMTS reserves the right to extend the time needed to fulfill the Incomplete. If the coursework is completed, a final grade will be computed and posted to the transcript. The total course hours scheduled will be used in academic progress determination.

Course Repeats (Failing Grades)

Students must repeat any course in which a grade of ‘D’ or ‘F’ is earned. Failed courses may cause delays in training and may result in withdrawal from the program. If the failed course is a
prerequisite, the student’s training may be interrupted until the course is offered again. If the student’s training is interrupted, the student will be required to withdraw until the course is offered again. At a minimum, the student will not graduate as originally scheduled. The failing grade will be posted to the transcript, and all scheduled course hours will be used in the student’s academic progress determination.

Course Withdrawals

A student may voluntarily withdraw from a course if he/she has not yet exceeded the attendance policy contained in this catalog. If a student voluntarily withdraws, according to the attendance policy, a grade of ‘W’ is posted to the transcript. If a student has been absent for more than 15% of the hours in the course, the student has exceeded the attendance policy and will be withdrawn from the course and the final grade will be ‘F’. The total hours in the course are used in the student’s academic progress determination for ‘W’ and ‘F’ grades. However, a grade of ‘W’ is not used in the determination of the Cumulative Grade Point Average.

Pass/Fail Courses

Courses graded with Pass/Fail are not used in the determination of the Cumulative Grade Point Average; however, if the student receives a failing grade (Fail), the course must be repeated. The total course hours will be used in the student’s academic progress determination.

Remedial Courses

There are no remedial or developmental courses offered at EMTS. Students needing developmental education are referred to other educational facilities.

Non-Punitive Grades

Grades of Pass, Fail, and Withdrawal are not used in the calculation of the grade point average. However, all hours attended are used in the student’s academic progress determination.

Make-up Policy

Any class work, assignments or exams missed as a result of any excused or unexcused absence must be made up. The following policies apply:

Written Tests

1. A student who misses a regularly scheduled test may make arrangements for a make-up test. Pop quizzes may not be made up. The grading policy on make-up tests is as follows:
   A. If the student receives a grade on a make-up, which is higher than the class mean (average), the student shall receive a make-up grade no higher than the class mean (average). If it is lower, the student will receive the grade earned

2. The student must contact the instructor on the student’s first day returning to school to request a make-up test. The instructor will schedule the time for the test to be made up. If the student does not keep the make-up appointment as scheduled, the student will receive a zero score and failing grade for the test.

3. A student, who is aware, in advance, that an absence will occur on a scheduled test day, must notify the instructor and take the exam on the date assigned. In some cases, the date assigned may be prior to the scheduled test day

4. Any student who does not take a test in accordance with the terms of this policy shall receive a score of zero (failing grade) on the test.

Clinical/Technique Objectives

1. Achievement of clinical or technique objectives may be demonstrated by successfully performing, under supervision, those objectives missed in the clinical training, and must be documented by the instructor.

2. Students must make up missed clinical objectives in the clinical and/or skills lab as outlined by the instructor.

3. Students will not be given credit for hours of make-up time and/or work

Add/Drop Policy

Students may drop from or be added to the program without academic penalty within the first two weeks following the beginning date of the program if the student has not attended the course. All schedule changes must be processed by the Student Affairs Coordinator.
Attendance Policy

Purpose

1. To establish acceptable standards of attendance and punctuality for all students attending EMTS.
2. To encourage students to pre-schedule absences in order to maintain adequate operations and minimize disruptions within the classroom.
3. To enable the student to meet required program objectives.

Policy

1. All students are expected to adhere to the standards for attendance and tardiness.
2. Students are expected to attend theory, clinical and laboratory classes as scheduled.
3. Students should call the School at least 30 minutes before class to report an absence.
4. Tardiness is defined as any time a student is not at his/her seat and ready to study as scheduled. Students are expected to be ready to commence and end school on schedule. Accordingly, arriving late or leaving early in connection with starting, ending, meal and break times is tardiness. Incidents of tardiness, which exceed the School’s standards, will result in disciplinary action.

A. Tardiness Policy:

1. Students arriving late for a class or leaving early are considered tardy. Tardiness disrupts the learning environment and is discouraged. Continued excessive tardiness or absences in any class could lead to disciplinary action up to and including expulsion.
2. Students may not enter or exit class except during break without express permission from the instructor.
3. Students who arrive late for an exam, may be admitted at the instructor’s discretion, but the grade earned on the exam may be marked down up to 10%.
4. Students who arrive more than 15 minutes late to a scheduled clinical or laboratory assignment will not be admitted, and will be marked absent.

B. Attendance Standard

1. Each student is expected to maintain a level of attendance, which is at or above 85% for the whole program.
2. When a student is at 10% absence (unscheduled time off) a written warning will be issued. Continued absence above the 15% level will result in progressive disciplinary action up to and including termination.
3. Students absent from theory or clinical classes, are responsible for obtaining missed materials and information, and for meeting the course objectives.
4. Student may schedule an appointment with an instructor to get missed lecture materials or handouts, and receive a remediation plan.
5. Homework must be completed and turned in on the first day the student returns to school. Credit may be given at the instructor’s discretion with the approval from the Director.
6. Excessive absences can result in the student being unable to satisfactorily demonstrate required achievement of the course objectives; if such a result occurs, the student will not be allowed to advance to a higher level in the program. The student may petition to retake the course according to policy, and on a space available basis.
7. The school may require medical clearance for any communicable disease, health condition and pregnancy.
8. Students who are absent for seven (7) consecutive days may be dropped from the program, at the Director’s discretion.
9. Clinical Practices: Students are required to complete 100% of their clinical hours. If students miss any clinical time, arrangements for make-up time must be made with the clinical supervisor. Students will not be considered to have completed their clinical practices until the site
The supervisor has certified all required attendance hours and documentation has been received.

10. Termination from the program will occur for any student with absences in excess of 20% in each course the student is currently enrolled.

11. For students who are receiving Veterans benefits, the Department of Veterans Affairs will be notified whenever students are placed on attendance probation or are terminated for failure to meet attendance requirements. The Department of Veterans Affairs will also be notified if a student re-enters following such termination.

12. Students who do not complete all graduation requirements on their scheduled graduation date as stated in their enrollment agreements will incur an overtime fee of $5.00 per day until they complete all requirements to graduate. The overtime fee needs to be paid in full for students to receive their diplomas and transcripts.

Failure to return from an approved leave of absence may have an impact on loan repayment, including exhaustion of some or all of the grace period. The Financial Aid Office will provide an explanation of the possible impact on loan repayment if an approval for an LOA is issued. Students receiving an LOA may not receive further financial aid disbursements until returning to active status.

Withdrawal and Readmission

Withdrawal

A student has the right to withdraw from the program at any time. When a student withdraws from any program, the student must give written notification of withdrawal. The student is required to clear all obligations in order to receive a withdrawal in good standing. Failure to comply with this policy means that EMTS may not honor any request for transcripts, letters of recommendation, request for information, and/or readmission.

Readmission

A student, who has withdrawn from a program, and is interested in returning, may apply for readmission. Readmission is dependent upon fulfillment of all conditions set forth at time of withdrawal. Applications are reviewed and the student is informed in writing of readmission eligibility. Readmission will be on a space available basis. A student who has been terminated from a program for unsatisfactory academic progress and/or violation of the attendance or conduct policy may apply for re-admittance. A fee of $100.00 will be charged for readmission. If readmitted, the student’s satisfactory progress status will be the same as it was upon leaving the School. Therefore, if a student was on probation, he/she would continue on probation when readmitted.

Student Services

Student Guidance

EMTS’ staff and faculty members strive to maintain close communication with our students.

Leave of Absence (LOA)

An approved Leave of Absence (LOA) is a temporary interruption in an active student’s program of study. LOA refers to the limited time period during a program when a student is not in attendance. The following conditions may be considered:

• Medical (including pregnancy)
• Family Care (childcare issues, loss of family member or unexpected medical care of family)
• Military Duty
• Jury Duty

A student may be granted a Leave of Absence (LOA) if LOA request is submitted in writing, which includes the reason for the request, prior to the leave of absence. If unforeseen circumstances prevent the student from providing a prior written request, the institution may grant the student’s request if the institution documents its decision and collects the written request within 35 days of the student’s last date of attendance. The total time requested off must not exceed 180 days (cumulative) in a consecutive 12-month period.

Failure to return from an approved leave of absence may have an impact on loan repayment, including exhaustion of some or all of the grace period. The Financial Aid Office will provide an explanation of the possible impact on loan repayment if an approval for an LOA is issued. Students receiving an LOA may not receive further financial aid disbursements until returning to active status.

Student Services

Student Guidance

EMTS’ staff and faculty members strive to maintain close communication with our students.
As deemed appropriate, a staff or faculty member may refer the student to the Director. Student Guidance is considered one of the School’s most important and valuable services. Vocational and personal guidance begins at the time a prospective student indicates an interest in attending EMTS, and continues throughout and beyond the completion of the program. The goal of the School is to support and guide students, and assist them in reducing or eliminating barriers that may interfere with their studies and ultimately their success. Should the student become aware of a drug or alcohol problem, or experience emotional or personal challenges affecting performance, the school will attempt to provide referrals to appropriate community services.

Orientation

Prior to beginning classes at the European Massage Therapy School, all new students attend an orientation program. Orientation facilitates a successful transition into EMTS. New students are required to attend regardless of their prior college experience. At orientation, students are acquainted with the campus, the administrative staff, the faculty and their peers. The director and the administrators explain the ways in which they assist students and clarify students’ rights and responsibilities. Student Catalogs are distributed and explained at this session. Students are introduced to the educational system, services, policies and procedures.

Student Activities

EMTS plans for and encourages student participation in a variety of activities including the following:
- Community Health Fairs
- Social & Cultural Events
- Job Fairs
- Activities relating to graduation

Job Placement and Career Services

European Massage Therapy School offers lifetime placement services to all eligible graduates. An eligible graduate is any student who has successfully completed all graduation requirements as stated in the “Graduation Requirements” section of the enrollment agreement. Many students desire self-employment, and establish an independent practice. The School’s Placement Services Department will assist students in their job search. Placement services include assistance with resume writing, interviewing techniques, identifying job openings, and other job search activities. In addition, students are provided guidance in completing licensure applications.

It should be understood that placement services offered by the School do not represent a guarantee of employment. Graduates requesting placement services will be required to attend scheduled interviews, participate in workshops, develop a professional resume, and comply with the placement policies in order to receive services. School cannot guarantee a job upon completion of the program. The School does not make any claims of salaries available in this field. Each student acknowledges that EMTS, its agents and/or employees, make no representations or warranties that successfully completing our classes or programs will make the student eligible for employment or any municipal, county, state or other government license which may be required for employment. Each student acknowledges that he or she is aware that some municipalities, counties or states require that their own testing procedures and other requirements be completed to their satisfaction as a prerequisite to obtaining a license to be employed in massage and related fields in their jurisdiction. Please note that massage therapy is a licensed profession in the State of Nevada and it requires additional examinations and/or certification for employment.

Disciplinary Action and Termination

It is the policy of EMTS to engage all of its representatives in the process of monitoring student conduct. This combined effort is designed to provide continuous, consistent and supportive services that are intended to inform and guide the student in all aspects of their educational experience.

Through well-established professional standards of conduct for its representatives, EMTS holds equally high expectations of its students. Procedures regarding Disciplinary Action and Termination are uniformly administered based on the degree of seriousness and nature of the misconduct.

In all cases, the Director will participate in the review and decision making process of all incidents of unacceptable conduct, and will take the appropriate action. Students who engage in misconduct are subject to a verbal warning with a memo placed in their academic file. The student may be placed on disciplinary probation for the second offense which will require the student to be monitored for the remainder of his/her academic career at the school. The Director reserves the right to terminate the student immediately if the offense is severe. Based on the severity of the misconduct, the student may not receive a written warning. If, after receiving a third written warning, student’s behavior is not corrected (misconduct is repeated), the student will be terminated.

Important: Multiple infractions (misconduct) of differing School or Clinical site policies may also constitute grounds for termination. In such instances, the student may be terminated immediately or will be advised of his/her immediate suspension pending investigation.

Grievance Procedures

It is the policy of EMTS to have a procedure and operational plan for handling student complaints, including decisions regarding suspension and termination.

A Student Complaint Procedure is available to any student who has not had a complaint resolved. The purpose of this procedure is to provide a prompt and equitable process of resolving student complaints.

Informal Complaint Process

1. Students with grievances should first meet with the Instructor. If the complaint is not related to the educational program, the instructor will advise the student to contact the appropriate School representative.

2. After meeting with the instructor, if the student believes that the concern has not been appropriately resolved, the student should then contact the School Director. If the School director is the instructor for the course, the student can contact the School Owner.

Formal Complaint Process

If, after following the above policy, the student still has concerns, he/she is directed to continue the Grievance Procedure:

1. Prepare a written statement of complaint, that is signed, dated, and includes a clear and concise statement of the facts including pertinent dates.

2. Submit the written statement of complaint to the Director within 10 working days of the incident.
3. The student may be required to meet with School representatives to discuss the grievance.

The student may appeal a grievance decision, made by the School if he/she believes it is unsatisfactory.

1. The student must request an appeal in writing, and submit it to the Director.
2. The Director may consult with the School Representatives and the student, and a decision will be made within 30 days.
3. The Director will inform the student of the appeal decision within 30 days of receipt of appeal. Notice will be in writing.

If the dispute is not solved by the Director, the student has the right to file a complaint with the Nevada Commission on Postsecondary Education.

In the event the validity of the high school diploma is in question, EMTS will use the following methods to determine validity:

- EMTS Admissions Office will cross check the diploma with a list of “diploma mills” provided to the school by the United States Department of Education. If the name of the school issuing the diploma appears on this list the high school diploma will not be considered valid and the applicant will have to attain their GED or a valid high school diploma.

- If a student is unable to produce a high-school diploma due to unusual circumstances (e.g. a student is a refugee from a war-torn country), then the student must complete an Attestation Letter stating the name of the High School, City, State and the year of graduation.
